TIN PLATE WORKER'S MACHINES.

THE subscribers having received the agency, for the Eastern section of Maine, for the sale of Peck, Smith & Co's Machines, are now prepared to furnish single Machines or in full and complete Sets. The attention of Tin Plate Workers is particularly invited to these MACHINES, as some valuable improvements have been made in them the past season. Those wishing to purchase may be assured that we will furnish any of said Machines at Boston prices.

A. NOYES & CO. feb. 14.

CUSTOM MADE TIN WARE.

CONSTANTLY on hand and made to order, by

HENRY A. WOOD

Store Dealer, No 1, 2 and 3 Broad St.

April 27.

A New Article.

WE have for sale a few of Morrill's Patent Counter Scales, which for convenience, simplicity and accuracy surpass every scale now in use. They combine all the advantages of the Patent Counter Scale, and the Platform Scale, and will weigh from half an ounce to 200 pounds.

may 10. PILLSBURY & SANDFORD.

COPARTNERSHIP.

THE subscribers have this day formed a Copartnership under the firm of

WILLIAMS & SHELDON,

For the purpose of transacting a General Commission Business.

ROBERT S. WILLIAMS.

Refer to GEORGE R. SHELDON.

GEO. W. PICKERING, Esq. Bangor.

Gen. SAMUEL YEAZIE.

New York, March 1, 1844.

WE would give notice to our friends that we have formed a connection as above, and have taken an office No 16, Wall Street.

We shall give our attention to the purchase and sale of MERCHANDISE generally, to procuring FREIGHTS and CHARTERS, Effecting INSURANCE, &c.

Particular attention will be given to the purchase of FLOUR and CORN, and to the sale of all kinds of LUMBER. WILLIAMS & SHELDON.

may 10.

SOMETHING NEW.

REFRIGERATORS or Provision Cooler, new style manufactured and for sale by

HENRY A. WOOD.

Store Dealer.

April 27.

POLITICAL.

Speech of Mr. Stewart, of Penn. in Defense of the Tariff and Distribution.

Concluded.

But this is not all Mr Van Buren says against the protective policy—he says, "the period has passed away when a protective tariff can be kept up in this country," that the tariff "increases the poor man's taxes in an inverse ratio to his ability to pay," and that direct taxation is a more equal and just system of revenue than duties on foreign goods. These, sir, are Mr Van Buren's opinions upon the tariff, as proclaimed to the world in his Indiana letter.

But let us look a little into the details and practical operation of this bill on the great agricultural, manufacturing, and mechanical interests of our country.

In the first place it greatly reduces the duties on wool and woollens of all kinds; three-fourths of the duties, and more, are taken from coarse cottons and calicoes; lead is robbed of more than nine-tenths of its protection. But Pennsylvania seems to be singled out for destruction. Her iron, her coal, her glass, her paper, her salt, and leather, are all struck down together, and we are to go to England for iron, coal, glass, &c. Yes, sir, in 1842 we imported more than four millions of bushels of coal, under a duty of \$1.72 per ton. This bill reduces it to one dollar. Of course you must double, and doubtless you will treble the quantity imported; and for what? increase the revenue. A few days ago Pennsylvania passed a resolution unanimously instructing us to go for protection "without regard to revenue." Yes, sir, these are the words, protection "without regard to revenue;" and here we are reversing the going for a bill for revenue without regard rule, to protection; voting for 20,000 copies of a report in favor of this anti-tariff, anti-American, and British bill.

But this bill greatly, very greatly, reduces the duties on whiskey, brandy, gin, and wine. We must import whiskey and brandy for revenue, and give the rich their wine at one half the present duty, and they must of course drink double the quantity or we loose revenue. What say you temperance men to this? You must all get drunk on foreign spirits to increase the revenue. Tax the poor by direct State taxation, and let the rich indulge in wine, brandy, silks, and laces, at lower rates! No, put the duties high on luxuries and distribute the proceeds of the land among the States to relieve the poor from taxation. Sir, pass this bill to lighten the burdens of the rich, while you double the burdens, reduce the wages, and destroy the labor of mechanics and the poor, and go home and bear what they have to say on the subject.

The following abstract from table C, in the appendix to the report of the committee, will show the practical operation of this bill upon the mechanical, agricultural, and manufacturing interests of the country.

Names of the articles.	Present duties.	Proposed duties.
EFFECT UPON MECHANICS.	Per ct.	Per ct.
Clothing, ready made by tailors	30	20
Mits, caps, binding and hosiery	30	20
Umbrellas, parasols, and sun shades	30	25
Silk hats, bonnets, &c.	55	25

window, 8 by 10	62	30
12 by 16	105	30
Lead, pigs and bars	66	30
Gunpowder	51	30

The 12th section of the bill provides that, after the 1st of September, 1845, all the duties above 25 per cent. be reduced to that horizontal standard, 25 per cent.

"In 1842, we imported more than four millions of gallons of wine and nearly two millions gallons of distilled spirits. England imposes 2.70 per cent. duty on our whiskey, and we, by way of reciprocity, now propose to reduce our duties on English and Irish whiskey (1,650,000 gallons of which, with other distilled spirits, was imported in 1842) to a mere nominal duty! The duty of 25 cents on what would also be affected. This bill brings all duties above 30 per cent.

down to 30 per cent.—a horizontal tariff, except on a few specific articles; and in one year more, it brings the duties down to 25 per cent., discriminating for revenue below that standard. This was bringing it nearly down to Mr Van Buren's standard, established in his famous Indiana letter. His maximum was 25 per cent till the debt was paid, and then 20 per cent., discriminating for revenue below that amount, but in no case above it for protection. This was Mr Van Buren's plan, as laid down in that letter, to which he referred gentlemen who might be disposed to doubt it.

(Here Mr S., was interrupted by a call to order from a Van Buren man.)

Mr S., said, gentlemen seemed very solicitous about order when their favorite men and measures were assailed, but nothing was out of order when it suited their purpose. Why was not the gentleman from Ohio (Mr Duncan) called to order, when, on a bill to fix the time of holding elections, he had introduced a coon, a dead coon, and had dissected it professionally, discussed it scientifically, inside and out; he had introduced all the Whig banners and flags of the campaign of 1840, and displayed them with great pomp, circumstance, and ceremony; and all this, in the estimation of gentlemen and of the Chair, was then perfectly in order.

DISTRIBUTION ADVOCATED.

From recent intelligence, coming in from all quarters, it is now manifest that we shall have a surplus revenue at the end of the year, independent of the proceeds of the public lands. If then the tariff yields revenue enough, as I doubt not it will, why not distribute the land proceeds among the States, to relieve their people from oppressive taxation? Pennsylvania, sir, owes a debt of forty millions of dollars, contracted in the prosecution of a stupendous, but ill advised, system of internal improvement, equally important to Ohio and the whole West, and hence she had claims for assistance on this Government.

(Mr McKay said, if she has contracted a debt of forty millions, let her pay it.)

Sir, if you withhold her share of the public lands, how is she to pay it? Her debt is now increasing, by the addition of two millions annually, on account of interest. She could pay it by doubling and trebling the present heavy taxation, which now crush her people to the earth. Yes, double the taxes of Pennsylvania, and it would not pay the interest of her debt, let alone the principal.

As a Pennsylvania, therefore, I go for the proceeds of the public lands to aid the people of Pennsylvania to pay their debt. Pennsylvania has a clear, legitimate, undoubted right to one-tenth part of the land or its proceeds. The population of Pennsylvania is one-tenth part of the population of the Union; and if we were to distribute the land itself tomorrow among the States of this Union, Pennsylvania would get more than one hundred million acres of the public lands. Would not that be an ample fund in the end to pay off the debt of Pennsylvania? Now, I claim, as a Representative from Pennsylvania, her share of the proceeds of the public lands; and I hope no Representative from Pennsylvania, who looks at the condition of his constituents, crushed under this weight of taxation, of onerous and increasing taxation, would vote against it. He thought that no gentleman from Illinois, Indiana, Ohio, Louisiana, Alabama, Maryland, Michigan, Mississippi, and other indebted States, some of them more, and others almost as much, indebted as Pennsylvania, in proportion to their population and means, ought, and he hoped none of the Representatives of these States would vote, to withhold from their people their share of the land, and by so doing, rivet tax on on them and their posterity forever. By the terms of the grants or deeds of cession, these lands had been ceded by the States to the Union. And for what? To pay the Revolutionary war debt. And when that was paid, the lands were left to the States, including the new States, and those which had made the cessions.

What does this Government want with this fund? It has an abundance of revenue, and if we relieve the people of the States from taxation by giving them what they are entitled to—the proceeds of the public lands—do we not relieve the people of these United States? Do we not relieve the people of this Government from taxation, when we relieve the people of the States from taxation? (For the people of the States and the people of the United States

ed and transcribed. The people have decided upon a change, and they will have it. They expressed this sentiment in 1844, and they will repeat it in 1844, with increased emphasis. The decree has gone forth, and it is irrevocable. It is seen on every hill—it is heard on every breeze—and felt in every throb of the popular pulse. The hand is upraised, and the blow will follow as certain as the stroke of fate; as well might you attempt to avert the winged lightning or stop the thunderbolt of Jove. The popular will is formed—it is the true and just sovereignty of the land—it must be respected and obeyed. And politicians can no more stay it in its course, or divert it from its purpose, than the tempest-tost mariner can control the winds and the waves that overwhelm him.

DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

THURSDAY, MAY 30, 1844.

WHIG NOMINATIONS.

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

FOR VICE PRESIDENT,
THEODORE FRELINGHUYSEN,
OF NEW JERSEY.

SEE FIRST PAGE.

The uneasiness betrayed by members of the loco party while they are anxiously waiting for the arrival of intelligence of the doings of the National Convention, is quite amusing.—There is evidently a strong feeling in this city for the nomination of Van Buren, and not a few of the party would no doubt prefer defeat with him to success with any other man. There are others who, if they can run Van Buren off the course, will feel that they have gained a victory, whatever may be the result of the election. A letter has been received here from one of the delegates, speaking despondingly of the disaffection and divisions among the delegates at Baltimore, and the utter impossibility of gaining any clue, at the time it was written, of the probable result.

These matters will serve to whet the appetite of the Van Buren ranks when the news does come, for his nomination we consider as certain, and we shall be disappointed if intelligence of such nomination does not reach us by the mail this evening.

All the uneasiness of the locos is merely a fancy matter as to what candidate shall be run, and which branch of the party shall hereafter be the party. They have no reason to hope for the election of Van Buren or any other man they may set up;—indeed, it is rather problematical whether they could succeed in electing a man if the whigs had no candidate. But the whigs have their candidates and are united as one man in efforts to elect them, because those candidates are the representatives of those political principles which commend themselves to the honest hearts and sound heads of that great mass of the American people, whose desire is, that the government may be honestly administered for the benefit of the people. These candidates will be elected, and the measures which the people approved in 1840, will be reaffirmed and clenched in 1844. So we believe and so we speak.

The labors of some of our citizens, a few years since, in procuring and setting fruit trees about their dwellings, are now well rewarded in the prospect of good crops. The fruit trees generally in this vicinity, are well filled with blossoms. We noticed in the garden of one of our friends, and we wish all of them had good gardens, that several pear trees, grafted in the modern French style, were in bloom, though less than four feet high. They will probably bear fruit, mere twigs as they are. This is an improvement on the old plan of waiting half a generation for the fruit to come to maturity in order to decide whether it was worth keeping.—Now one has only to decide upon what pear he will have that succeeds well in his locality, and he can be sure of getting what he desires.

A correspondent of the Exeter News Letter gives the following reasons for early rising, which are conclusive. It is to be regretted, however, that with many, fashion and idleness are of superior influence to sound reason. The writer says:—"The practice of early rising should be adopted—1st, because nature does not require but a few hours sleep. 2d, The morning air is the most healthy and invigorating to the system of any in the course of the day. 3d, The body and mind are better prepared for the necessary business of life in the early part of the day than any other. 4th, By avoiding the habit of sleeping in the morning, there are more hours of consciousness and activity, so that life is made to appear longer than it otherwise would."

The Washington correspondent of the New York Courier and Enquirer says: "It is rumored that Mr Calhoun will resign if the efforts now being made to procure the annexation of Texas fail. The Madisonian says that if the Treaty fails the joint resolution will succeed. This is altogether a mistake; as I said in my last, the measure has no better chance of success by joint resolution than by Treaty."

It is said that the exact number of persons present at Baltimore on the occasion of the great Whig Ratifying Convention, may be ascertained by only multiplying six Kentucky Camp Meetings by thirty Indiana Regimental Musters!

Our thanks are due to Jerome & Co's and to Gilman's Expresses for Boston and New York papers received by the last boat in advance of the Mail.

From Aux Cayes. Capt. Crocker, of the *USS Cecilia*, from Aux Cayes, brings dates to the 8th inst. and states that President Herard was not at Aux Cayes as reported by the *sch. Dady Chase*, at New York. Gen. Acaa, the commander of the blacks, had possession of the place with 700 men. A battle had been fought the day previous, but the result was not ascertained when he left. The U. S. corvette *Preble* was outside the bar, and had her boats and ready to give any assistance that might be required.

France and Mexico.

The New York Republic remarks that there is every prospect of an early and violent quarrel between France and Mexico. The French Minister in the latter country has received stringent instructions from M. Guizot, to demand the fullest reparation for the damages inflicted on the French merchants. From the characteristic obstinacy of Santa Anna, it is highly probable that France will be obliged to extort that justice which is unquestionably her due.

Numerous members of the Society of Friends, and also members of the Episcopal churches, in Philadelphia, have offered the use of their houses to the Catholic clergy, who have been driven from the vicinity of their churches. They have also signified a wish that they should be allowed to contribute towards building a new and larger church for the use of St. Augustine's congregation.

Mr. CLAY reached Maysville on the 22d instant, and was received most enthusiastically. The moment he reached the Kentucky soil an immense concourse crowded around him, cannons were fired, and every possible demonstration of respect tendered to him. He arrived at Lexington the next day, where his reception was equally enthusiastic and imposing.

Amos Kendall says that Theodore Frelinghuysen is a "psalm-singing professor, with a hymn book in his hand and a Bible under his arm." This is reason enough why Kendall should oppose him, but we think the moral portion of the community will not vote against him on that account.

A German, by the name of Becker, a man of wealth and acquainted with science, has decided upon investing a large capital in the vicinity of the recently discovered *Zinc Mines* of Warren. The works he intends to erect will produce five tons of zinc daily. The zinc now used is all imported!

The Portlanders are getting up quite a breeze in favor of numbering their houses, stores and places of building. We don't see how in the world they ever did business without numbering. By the by, we learn that Portland is increasing in population, and that a large number of dwellings are being erected. All right.

A fine boy, a child of Mr. Thompson Casey, of Salem, two years of age, was burned to death on Wednesday last, by his clothes taking fire.

The Late Earthquake.

A letter from Porto Rico, of the 17th ult., which we find in a late Havana paper, gives the annexed particulars which took place there on the day previous:

"Yesterday at 10 minutes before 9 o'clock, A. M., a dreadful earthquake was experienced in this city, accompanied with a subterranean noise which was truly terrific. The agitation continued 50 seconds, in a manner so violent that the oldest inhabitants say that it was never equalled on this island. It is impossible to describe the scene which was presented in the capital at that moment; the terrified inhabitants rushed from their dwellings to the streets and squares, in order to escape from death if the houses should be shaken down, and the confusion thereby created, increased the panic which overwhelmed all. The walls of almost all the houses have been cracked and some of them in a remarkable manner.—Also the church of the nuns, and the two towers of the consistorial house have suffered to some extent; but beyond this we have not yet heard of any material damage."

The christian religion has no affinity for the sensual, selfish and unholy principles of the world. The divine Author enjoined non-conformity to these things. It is also far removed from that studied oddity which makes one appear not only singular but slovenly and unlovely. "Charity," says an inspired Apostle, "does not behave itself unseemly."

The bell of St. Augustine's, at Philadelphia, which melted and fell in the flames of the burning church during the riots last week, was the old bell which first chimed musical peals at the declaration of American Independence—the dawning of freedom, political and religious, upon this Union.

A young gentleman who does not live a thousand miles from the city of Boston, was in the act of popping the question to a young lady the other evening, when just at the 'witching time' her father entered the room, and inquired what they were about? "O!" promptly replied the fair one, "Mr. ——— was just explaining the question of annexation to me, and he is for immediate annexation." "Well," said papa, "if you can agree on a treaty, I'll ratify it."

A well regulated Printing Office is the highest school of learning, and the best seminary of literary experience in the world. Graduates from this college—with minds well disciplined, judgments well matured—are among the best practical men in any community.

The Augusta Farmer says five new woolen factories are going up in this State, and the call for machinery is so great that it is with difficulty the supply can be obtained.

Benjamin Seaman was struck dead by lightning and instantly killed, while standing at the door of his house in Elizabethtown, N.J., on Sunday afternoon.

CONGRESS.

WASHINGTON, Saturday, May 26. In the Senate, the discussion of the Treaty of Annexation occupied the day. The subject of annexation came up incidentally in the House yesterday, and the whole subject was laid on the table by a vote of 103 to 78. The House refused to go into committee of the whole on the bill to extend the civil jurisdiction of the U. S. over the Oregon Territory. The House then went into committee of the whole, on the bill to continue the pensions to widows of revolutionary officers and soldiers.

NOTICE.

THE Street Engineers of the City of Bangor have been directed to lay out a street from Ohio street to Union street, between the houses of John Godfrey and Nathaniel Boynton, said street to be laid out thirty feet wide. Notice is therefore hereby given to the proprietors, and to all persons interested that the said Engineers will proceed to lay out said street on Thursday, the 6th day of June next, at nine o'clock, A. M. Immediately after the laying out of said street the Engineers will hear all parties on the subject of objections and damages at the Aldermen's Room in the City Hall, where they are notified to be present, and state objections, if any they have.

CARD.

THE undersigned being frequently solicited by his Maine friends to transact business at Washington, the Capitol of our country, where he is located, would advertise his willingness to devote a portion of his time in obtaining Patents, investigating claims upon government, obtaining contracts, and all other business connected with the different departments at our capital. Being personally acquainted with Col. Ellisworth, the Commissioner of patents, and other leading officers of government in Washington, he feels confident that he can facilitate the wishes and views of his friends to as great an extent as any other resident at our seat of government. All communications post paid will meet with immediate attention.

SAW FACTORY
IN THE STATE.

M. SCHWARTZ,
Saw Manufacturer,
NO. 1, GLIDDEN'S NEW BLOCK,
Exchange-Street, BANGOR.
THE Stock now on hand at this Establishment
is worthy the attention of the public. The
facilities for manufacturing, the possession of suit-
able machinery, the employment of accomplished
workmen, the advantage of a thorough acquain-
tance with the business and of giving his personal
attention to the manufacture of SAWS, M.
Schwartz is enabled to produce Saws of great ex-
cellence, and of every desirable variety, and at the
shortest notice.
It is only necessary for those who desire a good
article to call and test the Saws made at this estab-
lishment to satisfy them they are not excelled in
quality and are sold as low as can be bought else-
where.

ious patterns and quality, at a cheap
price.
J. B. LADD & SONS
may 20.

A. RICHARDSON,
Saw Manufacturer,
Exchange Street, Bangor.

WOULD call the attention of purchasers and
consumers of SAWS to the important
improvements lately perfected in the manufacture
of these articles. Having on hand an entire new
and extensive stock, mostly consisting of
Patent Ground Saws!

The advantages these saws have over all others made
by the old process are only fully appreciated by
those who have used them, they being ground per-
fectly true and free from thick or thin places, will
saw with much less set, cut smoother and a thinner
plate may be used, than those saws made by the
old process, the Shingle and Mill Saws have an
improved tooth which will save much labor in pre-
paring them for work, saws of every description
kept on hand, or if not will be made to order. ALL
SAWS WARRANTED GOOD.

DR. TAYLOR'S BALM OF
LIVERWORT.
PRICE REDUCED.
DR. TAYLOR'S Balm of Liverwort, from
375 Bowery, New York—for the cure of
Coughs, Colds, Catarrhs, Asthma, Soreness of the
Chest, Pain in the side and Breast, raising of
Blood, Liver complaint, Bronchitis, and all those
affections of Throat and Lungs which are a source
of so much suffering and unrequited, so often ter-
minate in Consumption—this remedy is highly and
justly distinguished. It is purely vegetable, mild
and gentle in its effects upon the system, and can
be taken in the most delicate cases, with safety as
well as utility. Physicians, aware of its medicinal
properties, and witnessing its effects even in ex-
treme and in some instances apparently almost hope-
less cases, often prescribe it in their practice, both
as a palliative and a remedy, and with the Medical
Faculty generally it has met with great approbation.

CONSUMPTION.—The following remarks were taken
from the last number of the Medical Magazine:—
"The surprising effect produced by the genuine
Dr. Taylor's Balm of Liverwort, made at 375
Bowery, in consumptive cases, cannot fail exciting
a deep and thrilling interest throughout the world.
We have so long considered this disease (consump-
tion) incurable, that it is difficult to credit our sen-
sations when we see persons, evidently consumptive,
restored to health. Yet it is a fact of daily occur-
rence."

Certificates from the highest and most respecta-
ble sources, or persons who have been either
greatly relieved by it, or entirely recovered from
affections of the Lungs and Liver, could be furnish-
ed in abundance, but we insert only the following
CERTIFICATE.

Liver Complaint and General Debility. I was given
up by two physicians, and told to prepare for
death. I was so weak I could not raise my hand to
my head. I was in this low state, when a friend
sent me a bottle of Dr. Taylor's Balm of Liver-
wort, from 375 Bowery, and before I had used up
the bottle, I was able to sit up in bed. By the fur-
ther use I have completely regained my health.
GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the
very best remedies ever discovered.
N. B. There is a spurious, and counterfeit article
about, therefore be careful to get the genuine,
which is from 375 Bowery N. Y., and is for sale by
G. W. LADD, Agent, Bangor.

Dr. D. Jayne's
FAMILY MEDICINES.

JAYNE'S EXPECTORANT.
THIS invaluable medicine is daily effecting some of
the most astonishing and wonderful cures that have
ever been known. All who have used it for Asthma,
Coughs, Spitting of Blood, Whooping Cough, Croup or
Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain
and Soreness of the Breast, Difficulty of Breathing, and
every other disease of the LUNGS and BRONCHI, can
and do attest to its usefulness. BRONCHITIS, a dis-
ease which is annually sweeping thousands upon thou-
sands to premature graves, under the mistaken name of
CONSUMPTION, is always cured by it. The usual
symptoms of this disease, Bronchitis, are Cough, Sore-
ness of the Lungs or Throat, Hoarseness, Difficulty of
Breathing, Asthma, Hectic Fever, a Spitting up of
Phlegm or Matter, and sometimes Blood. It is an in-
flammation of the fine skin which lines the inside of the
whole of the wind tubes or air vessels, which run through
every part of the Lungs. The Expectorant immedi-
ately suppresses the Cough, Pain, Inflammation, Fever and
Difficulty of Breathing, and produces a free and easy
expectoration, and a cure is soon effected.
It always cures ASTHMA. Two or three large doses
will cure the CROUP, or HIVES of children, in from 15
minutes to an hour's time. It immediately subdues the
violence of WHOOPING-COUGH, and effects a speedy
cure. Hundreds who have been given up by their phy-
sicians as incurable with CONSUMPTION, have been
restored to perfect health by it.
If this Expectorant be given in the commencement of
PLEURISY, INFLAMMATION OF THE LUNGS, or
in acute RHEUMATISM, in doses sufficiently large, so
as to cause a little nausea for some time, going to bed
and covering up warm, it will produce perspiration, and
subdue these affections at once.
PRICE \$1.00.

Tonic Vermifuge.
WORMS IN CHILDREN. Of all diseases to which
children are exposed, none are so fatal to them as
WORMS. Unfortunately, children are seldom free from
them, and as they imitate the symptoms of almost every
other complaint, they often produce alarming effects
without being suspected. They are not only a cause of
disease themselves, but by their irritation aggravate all
other diseases, wandering from one part of the body to
another, winding themselves up into large balls, and ob-
structing the bowels, and frequently the throat, causing
convulsions, and too often death. The desired remedy
will be found in Dr. JAYNE'S TONIC VERMIFUGE,
which will very soon destroy the worms, and invigorate
the powers of digestion so as to prevent a return of
them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.
This is one of the most efficient, pleasant and safe
compositions ever offered to the public, for the cure of
the various derangements of the Stomach and Bowels,
and the only article worthy of the least confidence for
curing CHOLERA INFANTUM or SUMMER COM-
PLAINT; and in the above and following diseases, it
really acts like a charm, viz:
Dysentery, Diarrhea or Looseness, Cholera Morbus,
Summer Complaint, Cholera, Griping Pain, Sour Stomach,
Sick and Nervous Headache, Heartburn, Water-brash,
Pain or Sickness of the Stomach, Vomiting, Spitting up
of food after eating, and also where it passes through
the body unchanged; Want of Appetite, Restlessness
and inability to Sleep, Wind in the Stomach and Bow-
els, Hysterics, Cramp, Nervous Tremors and Twitch-
ings, Sea Sickness, Flatulency, Melancholy and bow-
siness of Spirits, Fretting and Crying of Infants, and for all
Bowel Affections and Nervous Diseases.
PRICE 50 cents.

Hair Tonic.
NO EXCUSE FOR A BALD HEAD. Since the im-
portant discovery of DR. JAYNE'S HAIR TONIC, every
one who, if they choose, preserve their hair from falling
off, or if already bald, may, with certainty, have their
hair restored again by a faithful and persevering appli-
cation of this valuable HAIR TONIC.
Please to read without prejudice the following com-
munication, which, in addition to hundreds of others
equally respectable, should remove the doubts of every
reasonable person of the uniform and singular efficacy
of JAYNE'S HAIR TONIC.
Hamilton, Feb. 15, 1840.
Dr. D. Jayne—Dear Sir: I cannot say my hair is re-
stored, but I can say that it appears to be in as rapid a
process of restoration as could reasonably be expected.
I had not finished the first bottle before a decided
change was manifest over the bald part of the head, to
which it was applied. A new growth of fine glossy
hair, much like that of an infant, appeared, and has
continued to increase, and I have had it cut two or three
times. I have recently commenced upon the third bot-
tle, but have been a good deal irregular in the use of
the Tonic from the first, and from this cause I apprehend
the effect is at present less than it otherwise would
have been.
I began the use of the Tonic with little or no faith
that it would ever be successful on my head, though I
felt entire confidence in your statements of what it had
done for others; and I was as much surprised as de-
lighted when I saw the effect. You recollect the ap-
pearance of my head when in your office. I assure you
the hair has begun nearly, if not quite, an inch long at
the time I have had it cut, on those parts which were
nearly destitute of any when you saw me. It was, how-
ever, very fine, though quite thick. I am flushed with
sanguine hopes of final success, in the diligent use of
your Tonic, which, amidst all the hair humbugs which
have been advertised in the papers, I am constrained to
believe is what it claims to be, and that it will make
the hair grow, and no mistake, at least on some heads.
GEO. W. EATON,
Prof in Hamilton Lit. and Theological Seminary,
Madison County, New York.
PRICE \$1.00.

Jayne's Sanative Pills.
These Pills are an excellent, mild and safe purge at
all times, and are exceedingly useful in Dyspepsia and
obstructions of the Liver. Persons taking them can eat
and drink as usual, without fear of injury; and, what is
of infinite advantage, making the use of mercurial pre-
parations, so frequently used in derangements of the
stomach and liver, unnecessary.
These Pills may be taken at all times, and are benefi-
cial in nearly all diseases. They have long been a favorite
preparation of the proprietors, for all obstructions of
the Liver, Spleen, Kidneys, Uterus, and all other organs
of the body—Inflammations, Intermittent, Remittent,
Bilious, and every other form of Fever—Jaundice and
Liver Complaint. For Dyspepsia they are really an in-
valuable article, gradually changing the vitiated secre-
tions of the stomach, and producing healthy action in
that important organ. They are very valuable in dis-
eases of the Skin, and for what is commonly called "im-
purity of the blood"; also for Female Complaints, Cos-
tiveness, &c. &c. and in fact every disease where an
Aperient, Alterative or Purgative medicine is required.
Four fifths of the numerous and distressing cases of
DYSPEPSIA POSITIVELY CAN BE CURED by a
persevering use of this valuable SANATIVE.
They are expressly prepared to be used as an Aperient,
when a purge is necessary, while using his Expec-
torant, and for the removal of obstructions in the Liver,
which are often attendant on some of the diseases of
the Breast.

Prepared only by Dr. D. Jayne, Philadelphia.
And for sale, Wholesale and Retail, by SMITH &
FENNO, Booksellers, 14 West Market Square, Bangor.

NEW PRINCIPLES OF PURGATION.
CORNARO'S
Purifying and Preserving
PILLS.

THE American public has for a long time been
the victim of a false and dangerous system of
medicine founded on the practice of LONG CON-
TINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most wide-
spread and alarming character. They have reach-
ed through every vein and artery of our nation—
In every city, and village, and hamlet—in every
State and Territory of our vast Republic, will be
found those who have suffered, or who are still suf-
fering from the injurious effects of this old system,
of whose practical utility the disease, decay, and
utter prostration of those who test it furnish the
most condemning proofs!

COMMON DRASTIC PURGATION
Scour the system by the most improper and
violent means, and then leave it weak, low, feeble
debilitated, to regain its strength as best it may—
Sometimes the consequences of this old Purgative
practice are worse than mere Debility. Inflamma-
tion of the Bowels, Slow Fever, Bloody Piles, and
other horrible disorders are produced, simply from
the want of some enlivening and preserving power
in the medicine employed. Sometimes the diges-
tive organs are deeply and permanently injured by
this coarse and unphilosophical practice, leaving the
patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system
of Purgation, have led to the introduction of a new
Life-giving Medicine, called CORNARO'S PUR-
IFYING AND PRESERVING PILLS, which are
established on this new and only true principle of
Purgation, viz:
NO PURGATION WITHOUT IMMEDIATE
RESTORATION.

The use of this admirable Purgative remedy
strikes a death blow to that abominable system,
which by continually evacuating the bowels with-
out any conservative or saving power, so dreadfully
and fearfully prostrates and injures the unhappy pa-
tient. These Purifying and Preserving Pills are
believed to constitute the perfection of medicine,
being a UNIVERSAL VEGETABLE PURGA-
TIVE, containing two great remedies combined
viz: One remedy to PURIFY FROM CORRUPTI-
TION, and another to PRESERVE FROM INJURY
AND DECAY.

And for the purpose of attaining the highest de-
gree of purity in the preparation of these Pills, Dr.
Bradlee has, at a vast expenditure of time and
money, invented and patented at Washington, a
chemical and philosophical apparatus for distilling
and refining vegetable extracts, called
THE SEVEN-FOLD FURNACE.

A powerful and novel machine—having Seven Fire
and Seven Alembics, with distilling, condensing
and evaporating fixtures of a new and ingenious
contrivance, capable of obtaining more than seven
times the ordinary purity of any vegetable extract
heretofore used in compounding medicines. The
Balsamic and Preserving power of these Pills is
also, by this invention, highly purified and refined
and so mingled with the operative medicine, that it
repairs all the injuries created by Purgation as soon
as they are caused, and strongly fortifies the sys-
tem against future corruption and decay.

Let the public be no longer deceived by the ad-
vertisements of the "one remedy" doctors, who show
their entire ignorance of the organic laws of the hu-
man system by supposing that a medicine which
purges merely, without renovating or preserving, can
be a perfect remedy. For it is a fixed and immuta-
ble law of our being that there should be, in no case,
Purgation without immediate Restoration; and hence
it follows, and is proved to demonstration, that all
Purgatives which DO NOT possess a saving and
preserving power, are injurious and injurious only—
and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is
based upon unnatural and absurd laws and they who
follow it fall victims to their own folly, and too late
repent their temerity.

BEWARE OF UNRELIEVED PURGA-
TION! Purge and Preserve, or do not attempt to
Purge at all.
The celebrated PURIFYING AND PRESERVING PILLS purify the body from corruption
and preserve it from injury and decay by a single
operation. They are a Universal Vegetable Pur-
gative, of sovereign use in all diseases of the human
system in which purgation is required, particularly
in Jaundice, Indigestion, Dyspepsia, Eruptions of the
Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver
Complaint, Fevers, Nervous Disorders, Inward
Weakness, Cholera, Dysentery, Worms, Gout, Rheu-
matism, Female Complaints, Depression of Spirits,
Debility of System, &c. &c. &c. with full directions
